Short news update this month.

As you may or may not be aware Scanlon purchases our water from Cloquet. Last month Cloquet issued a water rate increase and therefore there will be an increase in Scanlon water rates effective March on your April billing statement, water will be increasing from \$8.49 per 1,000 gallons to \$8.99 per 1,000 gallons.

Rising costs of supplies has all of us feeling the effects which includes the rising costs to print monthly water/sewer bills. As a reminder you do have the option to receive your bill via e-mail, if you would like to sign up to receive your bill electronically please reach out to our city clerk at 218-879-4578.

You also have a couple different options to pay your bill besides in person or by mail. Pay online by going to www.allpaid.com and entering pay location # a001iw or by phone by calling 1-888-604-7888.
